

Building A Legacy
Capital Campaign 2016
Flushing Community Church

In October & November, Pastor Terry shared some exciting news that our leadership team has been working on clarifying our vision and mission of our church. This includes the possibility of expanding our current facility as well as adding additional ministries & staff that will encourage church health and growth.

While the details of this mission will be shared with every family this winter, our pledge will remain to be "financially conservative & missionally aggressive." A critical component of this mission will be funding. A strategic team is being assembled to help guide our efforts and we are looking for interested church attendees to join some of these teams.

Communications Team Led by Terry Bate
This team will create all marketing materials, handouts, flyers, invitations and etc. They will need a few creative minds plus help with folding, cutting and general manual labor.

Prayer Team Led by Ellen Evans
This team will be gathering to pray for our campaign as well as concerns within the church. They will also be creating ways to call each of us to pray more effectively in our own personal lives.

Hospitality Team Led by Paula Salem
This team will be focused on our Miracle Sunday Luncheon plus providing snacks & drinks at various gatherings.

Building Structure & Design Team Led by Bob Coe
This team has been working over the past year to consider our structure options that will meet our current & future needs.

Mission Advisory Team Led by Terry Bate
This team will assist Pastor Terry and the staff in making sure that our campaign remains missionally focused.

Financial Commitment Team Led by Mark Taylor
This team will be selected to help us articulate the financial needs of our mission as well as design ways to assist us in making our financial pledge toward our mission.

Yes! Count me in to help out!
