until all have heard

Hello Friends!

About two years ago, we came back from Uganda and Hong Kong. Since then, we've gotten married and been able to remain involved in several local ministries within the church. Today, we send this letter to you as an announcement: we're on our way back to the field! In the past couple years, God has heavily laid immigrants and refugees on our hearts. In response to this, the Lord led us to an organization called Global Frontier Missions: a ministry specifically focused on training people to reach the large population of refugees & immigrants found in Atlanta, GA. The program is a year long consisting of five months of training and seven months of apprenticeship with GFM.

It has come as little to no surprise to us that a big topic of US and world news has been immigration as well as how to respond to the Syrian refugee crisis. Our hope is to openly welcome immigrants not just into the states, but right into God's loving family upon arrival. These people have permanently left their homes, community and people behind...but we have the best news: they have a pan-national kingdom and family in Christ waiting for them with open arms! We are so grateful to have the opportunity and the calling to serve in this way.

As we are about to take this next step onto the field, we know that we are not alone! We have God holding us up and His family helping push us forward. We would love to have you join us in this. Here are a few ways in which you can participate with us...

### 1. Pray. Pray. Pray.

The most important thing you can be doing with us is praying. We could work till we pass out and accomplish nothing without God's presence and prayer support from the rest of our Kingdom family.

### 2. Monetary Support

As we step out in faith we are trusting in God to provide for us and relying on Him alone. If you feel lead to partner with this ministry in funding the work God is calling us to, we'd be happy to receive your support! (This can be done through monthly contributions, a one-time gift, or in any other way you might feel led.)

### 3. Join Our Prayer Team

We are looking for a core group of people that want to partner with us in week-by-week prayer for specific struggles we face on the field.

We would love to meet with you after service to discuss the ways you can best assist our efforts to influence the world for Jesus one refugee at a time.

God Bless!  
-Ian & Erin Maclay
