

Frequently Asked Questions:

Can Financial Commitment Cards be turned in later?

Yes. We will receive cards anytime through March and beyond. As new families come to our church, this vision and mission will be shared with them as a part of our “new attendee luncheons” and opportunities to get involved will be offered.

Who will see my pledged amount?

Pledges will be gathered by our Financial Commitment Team and held confidential. You will receive periodic reminders in the mail of your amount pledged and the amount that has been given.

When we will know the total amount pledged?

Our pledge and received gauge will remain on the wall of the church. We will be updating it regularly so everyone in the church can continue to see our progress.

How do we give?

At the church, make sure to use a giving envelope and put your name and account designation on it. “Legacy” or “Building Fund” will help us differentiate between “Tithe” or “Regular Giving.” When giving online, please select “Building A Legacy Campaign” under the various account designations.

When do we start giving?

You may begin your giving toward our Legacy Campaign immediately through the end of February 2019.

Can I shift my regular giving toward this campaign?

Please do not shift your current giving toward our new capital campaign goals. Our ministries need your consistent giving in tithes to continue operating the way they are. Legacy Campaign giving should be above your current giving levels.

When will we start building?

We must have half of the needed funds in hand before we begin with the other half safely pledged. This could be very soon or this could be a year from now. That is in God’s hands! Our Board will be keeping the church informed with updates regularly.
