
WHAT IS DISCIPLE NOW?

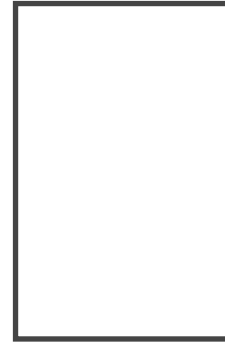

Disciple Now is an annual Fall retreat that is hosted by churches all across the country. It is a time of spiritual reflection and renewal, while allowing students to grow closer to one another.

This year we have the unique opportunity to partner with youth groups from all over the Greater-Flint area for Disciple Now. We believe that God's Kingdom is far bigger than any one church or church's youth group. As we have sought to see students ignited in their faith to live out the Gospel in their schools and neighborhoods we have come together across denominations to worship, learn, and be sent as one.

Although this retreat may look a little different than some are accustomed to we will still have the unique aspect of gathering in individual church's host homes for small group as a way for each church to grow closer together. That means that whatever church you come with, only students from that church will be together in host homes.

This is an exciting opportunity to see the movement of God together and understand what the story of God has been and what it continues to be in each of our lives! Don't miss this incredible opportunity.
